IT & Technology Services Segment achieved Customer Revenue of ₹ 22,135 crore during the year ended March 31, 2020 including Mindtree revenue consolidation of ₹ 5,915 crore. Businesses within this segment have smoothly transitioned to a work-from-home environment during the pandemic with encouragement and support from customers.

The EBITDA Margin for IT&TS Segment declined to 20.9% for the year ended March 31, 2020 as compared to the previous year at 23.2%, mainly due to multiple cost pressures including higher on-shoring costs, increased visa charges and investment in new competencies.

Financial Services Segment

Financial Services Segment recorded Customer Revenue of ₹ 13,822 crore during the year ended March 31, 2020, registering a y-o-y growth of 9%, driven by growth in loan assets of 'focussed' business lines.

The Loan Book at ₹ 98,384 crore was marginally lower as compared with March '19 at ₹ 99,121 crore in a volatile and tight liquidity environment. The operating margin of the financial services segment for the year ended March 31, 2020 was lower at 19.9% as compared to the previous year at 24.5% on account of higher credit cost due to additional prudential provisions and Covid-19 related provisions as per RBI guidelines.

Developmental Projects Segment

During the year, shareholding in L&T Infrastructure Development Projects Ltd (L&T IDPL) has been diluted to 51% on the partner Canadian Pension Plan Investment Board getting statutory approval for conversion of Compulsorily Convertible Preference Shares (CCPS) into Equity under a negotiated agreement.

Developmental Projects Segment registered Customer Revenue of ₹ 4,850 crore during the year ended March 31, 2020, recording a decline of 4% over the previous year, on account of lower offtake from Nabha power plant by the state of Punjab and a planned shutdown of one unit for overhaul and repairs in Q4 FY 2019-20.

The EBITDA Margin of the Segment for the year ended March 31, 2020 improved to 11.1% as compared to 10.3% during the previous year on account of full commissioning of Hyderabad metro and improved profits from Nabha power plant.

Customer Revenue of "Others" Segment during the year ended March 31, 2020 at ₹ 5,070 crore registered a decline of 11% over the previous year, as previous year included revenue from a large value transaction pertaining to the sale of commercial property and higher hand over of residential property in Realty business. International sales constituted 11% of the total customer revenue of the segment.

During the year ended March 31, 2020, the segment EBITDA margin stood at 20.9%, lower as compared to 28.6% margin in the previous year, mainly on account of gain on sale of a commercial property in the previous year.

The Customer Revenue during the quarter January-March 2020 stood at ₹ 1,121 crore recording a y-o-y decline of 31% representing sluggish demand and disrupted supplies in March 20.

The segment recorded EBITDA Margin of 17.9% for the year ended March 31, 2020 almost in line with previous year.

Outlook

The Indian economy has been struck by the coronavirus pandemic at a time when some green shoots of economic recovery were being forecasted after a prolonged bout of growth slowdown. The lockdown imposed towards the end of FY 2019-20, in an attempt to prevent community transmission of the virus, has unfortunately led to both demand and supply shocks to the economy. Even though the Government has announced a wide ranging raft of stimulus measures designed to alleviate stress in various sectors, it is likely that economic growth will still take a few quarters more to revive to healthy levels.

On the global front, oil prices remain soft in a scenario of demand-supply realignments and geopolitical developments leading to fiscal imbalances in oil producing countries. The US-China trade spat also appears to be escalating and spreading to other countries in bipolar fashion, leading to uncertainty in economic activity in different geographies.

Against this backdrop of domestic challenges and global volatility and the uncertainty about timelines by which normalcy will be restored, the Company has taken a number of measures designed to weather the economic crisis. These measures include building sufficient liquidity on the Balance Sheet, adapting business models to incorporate work-at-home practices wherever feasible, optimising digital initiatives to facilitate site execution, engaging with customers to refresh contractual rights and obligations, sharply focusing on all items of costs to maximise economic benefits, taking care of the large sub-contracted labour force at work sites, complying with all Governmental directives while working to remobilise the workforce to commence execution of projects and strengthening practices to ensure that staff are safe and well during this period. While the initial quarters of FY 2020-21 are expected to be adversely affected by the current upheaval, we

expect growth revival in the later part of the financial year assuming things get better from here.
